12/20/83

Dear Mr. Prongas,

Thanks for your note.

There was some interest in better information about Latin America inside the government in World War II but under Truman it was aborted before McCarthy and those who were part of it were the victims of the pre-McCarthys of the day. Especially inside State.

If you have any good students who have serious interests. not whodunits, my records are available to them.

Jerry McKnight at Hood can give you an indea of what some of his have done and how they benefitted.

Best wishes,

Harold Weisberg
